

Project Manager – Virtual Cyber Range Platform

Location: Bangalore (Onsite at CySecK) | Type: Full-Time, Annual Renewable Contract |
Organization: CySecK – Centre of Excellence for Cybersecurity

About the Role

CySecK is developing a Virtual Cyber Range Platform to deliver advanced hands-on cybersecurity training. We are looking for a dynamic Project Manager with strong experience in managing large-scale cybersecurity development projects, especially cyber ranges or similar initiatives.

Key Responsibilities

- Lead and deliver the Virtual Cyber Range project end-to-end.
- Coordinate with architects, developers, and cybersecurity experts to meet milestones.
- Drive agile project management practices and ensure timely delivery.
- Engage with stakeholders from government, academia, and industry.
- Monitor risks, resources, and project progress effectively.

Requirements

- Bachelor's/Master's in Engineering or Computer Science or Cybersecurity, or related field.
- 10–15 years of experience managing large IT/cybersecurity projects.
- Good Understanding of cyber range or cybersecurity platform delivery.
- Strong knowledge of Agile/Scrum and project management tools.
- PMP/PRINCE2/Agile certifications preferred.

Why Join Us

- Contribute to a national-level cybersecurity initiative.
- Lead a flagship project with lasting impact.
- Work with top experts across industry, academia, and government.
- Please send your CV with subject line "Project Manager" to contact.cyseck@fsid-iisc.in
